To: Parents of Pupils in Year 11 GCSE Physics

Dear Parents,

Physics CGP Workbooks and Revision Guides

A number of Year 11 pupils have expressed an interest in obtaining a CGP workbook and/or CGP revision guide for their GCSE Physics course. We would be happy to obtain these via school at a price of £3 per book, which is lower than the retail price.

Please note that the CGP revision guide contains the same information as the CGP textbook that we use in class. Unlike the textbook there are very few questions in the revision guide. The layout in the revision guide is also very text dense and so unsuitable for some in the group. Others may prefer this format.

The CGP workbook contains additional exam style questions. Please note that there is no compulsion to buy it and I will not be setting homework from it. The current textbook contains plenty of exam style questions, many of which are being set for homework and has the added advantage of answers in the back, which pupils can refer to for help if stuck. If pupils want the CGP workbook and choose to do questions from it as extra work on top of normal homework, then I will mark this if handed in.

Please tick on the permission slip below for any books required and return this slip to Dr McKitterick by Monday 20th November 2017.

The cost will be £3.00 for each book ordered and this will be added to your next termly fees invoice.

Yours sincerely

Dr D McKitterick
